

Your business operations are remote. Why should your employees be remote too?

Business incentives like reducing risk associated with working on remote sites have led industrial players to consider ways of minimising the expenditure. On operational mobility.

Omoco solution for remote is designed & can be customized as per your business.

With a state of the art design, Omoco can

- Enable ease of deployment
- Be secure and reliable
- Minimise company expenditure

Our products run on minimal power that are also solar energy friendly. With Omoco you can provide wireless coverage at any of your remote business site & enhance work efficiency. Because a remote business doesn't mean not reachable.

ABOUT OMOCO
